Representative in Legislature.....F. J. McRee
Trustee.....S. B. Reames
Sheriff.....J. T. Jordan
Tax Assessor.....J. R. Bradsher
Register.....J. W. Matthews

ANNOUNCEMENT.

The Falcon is authorized to announce F. J. McRee of the Eleventh District as a candidate for Representative from this county in the General Assembly of the next legislature of Tennessee, subject to the action of the democratic party.

With hog and hominy which are promised to this section from the present crop of corn and hogs we are expecting to live in plenty hereabout.

The editor of The Falcon and wife are leaving Somerville today for a week's vacation and in the absence of the editor the office and its business will be looked after by Mr. J. D. Foster who has been an employee of the office for a number of years and who will be here to give what service he can thru the office and paper to patrons of The Falcon.

A. R. Dodson, president of the Tennessee Bankers Association, reported to the Tri-State Farmer-Banker meeting in Memphis last week that there are forty six county demonstration agents in the counties of this state, and said "The bankers are paying a large part of the salaries of these agents." Not so in Fayette county. No bank or bank employee in Fayette county has subscribed a penny this year to the salary of the demonstration agent.

The reign of lawlessness in Memphis received another set back last Tuesday when the supreme court of this state rendered its decision ousting Sheriff Reichman from office because he did not properly enforce the laws of the state. The high court reversed the chancellor's opinion in this case and declared that the sheriff is more than a mere process server as he was declared in the opinion of the chancellor, and that it is his duty to take steps to prevent offenses against the law when he has reason to believe they are likely to take place. "Enforce the law, without fear or favor" must eventually become the slogan for every office holder in this state or the ouster will get him. Lawlessness has had a long reign but its day of grace is about up.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it doesn't start your liver and straiten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

LINIMENT

By a recent rule of the Cumberland Telephone & Telegraph Co. which enjoys a monopoly of the wire communicating business to and from Somerville this city is virtually cut off from all telegraph connection with the outside.

Since the Western Union was deprived of an office here by the action of the N. C. & St. L. Ry. some years ago telegrams have been handled here by the Cumberland Tel. & Tel. Co. in conjunction with the Western Union thru its Memphis office, the two companies dividing the tolls. But August 1 this plan was discontinued and now a Somerville party desiring to send a telegram must call Western Union in Memphis and give them his own telegram, and must pay full toll for the telephone message and full toll for the telegram. This is unjust and if proper complaint were filed with the state railroad commission we do not believe it would be allowed. Will we submit without a word?

Now that the vote on the constitutional convention question has settled it that Tennessee is to have a new constitution framed it is up to the several counties to choose their delegates to a convention which will meet in Nashville next November for that purpose. Fayette county will send a direct delegate and will join with Shelby county in selecting another. For the direct delegate from this county The Falcon here and now offers its vote and endorsement to Capt. H. C. Moorman whom we offer as the man in Fayette county best fitted for the honorable and responsible position. He is a man of intelligence, ability, honesty, learning and experience which combine to make him the man for the place. He has spent a half century in the practice of law in Somerville and enjoys the esteem and confidence of the entire county. There may be those who have not always agreed with him in political matters, but there is no man in the county who will dispute his eminent fitness for delegate to the convention which will formulate the new fundamental law for this state. In such a position he will reflect credit upon Fayette county and the state of which it is a part, and The Falcon moves his nomination by acclamation.

These are busy days for County Farm Demonstration Agent J. W. Moffatt. The season for preparation for fall-sown grasses and clovers is at hand and farmers in every part of the county are interested and are calling on him. Numerous plots planted to these crops last year have been eminently satisfactory and the clovers, alfalfa and grasses have produced abundantly, giving a high degree of satisfaction to the farmers who planted them and worked them under the advice and methods of the agent. In fact where ever a farmer followed the advice of the county agent his plot has done well, and if there is a single exception to this The Falcon has not heard of it. These successful plots have interested others and in every part of the county other farmers are asking the agent how to prepare and plant. There will be larger plantings of these crops and of all winter growing crops than the county has ever seen and we want to see them keep growing in acreage until on every farm is a field or two of winter crops. Aside from other benefits the county has derived from the services of the county agent, he has been worth in encouraging winter crops all he has cost the county in the past three years. The he has done much other valuable work as many good farmers will certify.

With the November campaign fairly started as it will be now that the August races are off the running list, there is work for interested democrats in every county of Tennessee. The republicans are planning to wage the most vigorous campaign they have ever waged in the state. Their candidate

for governor is not their strongest man by a good deal, but he is a representative man, and their candidate for United States senator is an aggressive man with vim and energy seldom met with. He is a strong campaigner and they are planning to put out legislative and congressional candidates in every section of the state, not with a hope of electing them but with the hope of bringing out the full party vote for the benefit of the candidates for governor and United States senator. It is a time for every democrat in the state to be alert and doing. Fayette county democrats need to go to the polls in stronger numbers than they did on last Thursday when about eight hundred votes were cast. The county should give the democratic ticket in the November election sixteen or eighteen hundred votes and can if democrats will get out and help to make that vote. And every vote will be needed for Wilson, Rye and McKellar. This is not going to be the easily won contest that the democratic nominees for county office in this county win, and the need for a strong party vote will be as great as is the need of any candidate in the primaries where we usually have our largest vote. The state will go democratic and every nominee of the party will be elected if the democratic voters of this county and other democratic strongholds will interest themselves enough to go to the polls and cast their votes. The republicans are certainly going to cast every ballot possible and it behooves democrats to begin right now to plan a campaign that will throw off the lethargy that has been over voters in this county and bring the vote up to the county's democratic strength. A Wilson-Rye-McKellar club for the county and one in every district, what do democrats say to this?

PERFECT CONFIDENCE

Somerville People Have Good Reason For Complete Reliance.

Do you know how—
To find relief from backache;
To correct distressing urinary ills;
To assist weak kidneys?
Your neighbors know the way—
Have used Doan's Kidney Pills;
Have proved their worth in many tests.

Here's Somerville testimony.
Mrs. G. W. Bobbitt, College St., Somerville, says: "About four years ago I was in bad shape with disordered kidneys. I was hardly able to get around and the pain across the small of my back kept me from bending and doing my housework. The kidney secretions were unnatural and gave me great annoyance. Doan's Kidney Pills brought me quick relief and after I had finished the second box, the ailment left me. I have been free from kidney complaint ever since."

Prices 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bobbitt had. Foster-Milburn Co., Props., Buffalo, N. Y. 8-11

Will My Child Take Dr. King's New Discovery?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold Insurance. 9-1

The Fayette Falcon

Founder Never Results

When Farris' Colic Remedy is used for it does not contain opiates which constipate, but is laxative in its action. It is dropped on the horses tongue—cures by absorption. We sell it on the money back plan. W. S. Sinsault, 9-1

PLANT EARLY IN AUGUST.

You can have a better garden in the fall than in the spring.

For a family of five one 10-cent package each of: Early Blood Turnip Beet, Early Eclipse Beet, Red Valentine Beans, Country Gentleman Sweet Corn, Georgia Collard, Drumhead Savoy Cabbage, (It will grow all winter.) Danvers Half Long Carrot, Dwarf German Kale, Big Boston Lettuce, Southern Curled Mustard, Chinese Rose Radish, Bloomdale Spinach, White Egg Turnip, Strap Leaf Turnip, Seven Top Turnip (for greens.) Disk, cultivate or spade the land and make it fine to a depth of three inches. Let it alone for 3 or 4 days so that the moisture will collect just below the soil that has been stirred.

Then plow or spade to a depth of 6 or 7 inches, throwing the fine soil to the bottom of the furrow. Harrow or rake the soil as soon as it is plowed. Work it thoroughly 3 or 4 times, then plant the seeds. Tramp the dirt hard over the seeds so as to compress the soil around them. Scatter a little loose soil over the top of that which is packed. Sow the cabbage seed thickly in the row and when the plants are three inches high thin out to single plants every foot. Do not transplant Fall cabbage.

Plant 6 bushels Irish Cobbler potatoes on half an acre. If you have seed grown this year, spread it in the shade under a shed or tree for two weeks to ripen and green the skin. Plant the potatoes whole. H. M. COTTELL, Agriculturist. Bureau of Farm Development. Memphis, Tenn.

Clear Skin Comes From Within

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their action on the bowels. Good for young, adults, and aged. Go after a clear complexion to-day. 25c. at your druggist. 9-1

Keep Yourself Up to Scratch

Fortify Your System Before it is Weakened by Ills

Don't wait until you are actually sick to take a laxative, you know "an ounce of prevention is worth a pound of cure." If you will just take LIV-VER-LAX regularly, it will keep you continually in the best possible shape, bright, energetic and happy. It is made of harmless vegetable matter, and by acting gently but effectively keeps the system cleared of poisons and ready to perform its best work.

LIV-VER-LAX is sold under an absolute GUARANTEE to give satisfaction, or money will be returned. For sale in 50c and \$1.00 bottles at Rhea Drug Co. 9-1

MUST PLACE ORGANIC MATTER IN FARM SOILS

There Are Several Ways to Supply This Requirement—Crops Plowed Under is One; Manure is Another.

(By C. E. Allred, Division of Extension, University of Tennessee.)
The most important soil problem in nearly all regions is the question of organic matter. This problem is particularly serious in the South. In this region of long seasons a tremendous quantity of organic matter is used up each year. In colder regions the "decay" is less rapid. In the South the great soil problems are organic matter and erosion, and the latter problem is, to a considerable extent, a problem of organic matter, because this helps to hold the soil.

protect manure in covered pits like this. Manure is one form of organic matter needed in soils.

Each farm must ordinarily grow its own organic matter supply. Occasionally, a farmer may depend on purchased manure or hay, straw, or other feed, but these are expensive and bulky to handle, and cannot often be secured at prices that will enable a farmer to make a profit from them.

There are three general methods of adding organic matter to the soil. (1) By plowing under crop roots, stubble, cornstalks, etc. (2) By the use of farm manure. (3) By plowing under green crops.

Weeds furnish one of the cheapest sources of organic matter. They should be plowed under before the seeds are ripe enough to grow.

Stopped in the Nick of Time

from conveying information to the enemy. This is but one of the hundreds of thrilling incidents in the story of shot and shell, intrigue and catastrophe based on the war in Europe which will be printed in this paper in serial form.

UNDER FIRE

Is a vivid presentation of the things which are taking place day by day in the world conflict. It reveals the secrets of the spy system, takes you to Belgium at the time of the invasion of that country and pictures life in the trenches in all its impressive details. Through it all there runs a gripping and romantic tale of love and romance.

Irvin S. Cobb, the famous war correspondent says:
"Under Fire" is the real thing. I know because I have seen the real thing."
